MEMORANDUM FOR THE RECORD

SUBJECT: Map Library Classification Requirement

25X1

1. On Thursday, 7 February, I talked to [redacted] Chief, OGCR's Map Library at the Map Library Annex in the Headquarters building. I mentioned to him that I had been reviewing 1947-50 OGCR files, and felt somewhat hesitant about completely declassifying some map library files because I was uncertain if some of the names mentioned in the documents had left in overt status, and what OGCR felt was really important (from a security point of view) about such an operation as the Map Library (which has many contacts with the general public, especially the academic community).
